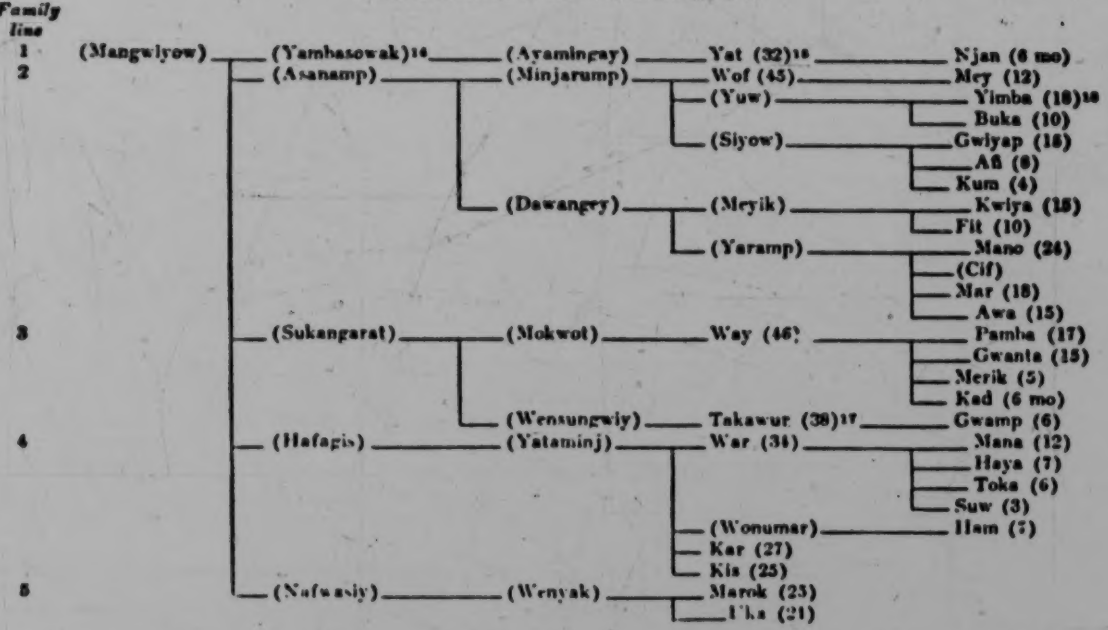
THE LINEAGE OF MANGWIYOW[13]



[13] Parentheses indicate that a person is dead. Numbers show approximate age. Female names are distinguished from male by vowel endings, a device for the reader's convenience, not a characteristic of Kwoma culture.

[14] The *brothers* in this generation are arranged from top to bottom in order of seniority, i.e., any man calls a *brother* above him in the list *older sibling;* he calls a *brother* below him in the list *younger sibling.*

[15] The shortened form of the names of living persons who appear frequently in the text has been used rather than the longer form. Thus the long form of Yat is Yataminj, of Wof is Wofaraga, of Mey is Meyamukw. The shortened form is used by the Kwoma in intimate address or reference.

[16] Females of lineage still living in hamlet are included in this table.

[17] Does not live in the hamlet.
